Office Action Summary	Application No. 10/721,154	Applicant(s) HSUAN, MIN-CHIH	
	Examiner Joy K. Contee	Art Unit 2617	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's arguments filed 12/7/05 have been fully considered but they are not persuasive. Applicant argues that Ishizuka, US Patent No. 6101391 fails to disclose in summary a) informing the second cellular phone to switch to a wireless system; b) the first cellular phone informed that the second user is switching; and, c) the first cellular phone has an identification. Examiner disagrees. Ishizuka teaches that a first mobile station (MS1) is provided with a keyboard as input means, having a notifying button for calling out other mobile stations in a group, e.g., MS2 and MS3 (see col. 5, lines 52-65). Mobile stations (MS1-MS3) have a group ID that is stored and used at the time registration with the administration base station or the like. Each mobile station in the group are aware of a mobile station leaving the group or geographical area (see col. 7, lines 8-37). Hence Examiner contends that Ishizuka reads on the present invention as claimed.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2617

3. Claims 1,6-8,10-13,18-20,22-25,30-32,36,41-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishizuka et al. (Ishizuka), US Patent No. 6,101,391.

Regarding claim 1,6-8,10-13,18-20,22-25,30-32,36,41-43 , Ishizuka discloses a digital cellular phone system having a base station, the digital cellular phone comprising: a first user registering the digital cellular phone system and keeping contact with the base station, the first user belonged to a group; the first user registering an entry notice function to the digital cellular phone system; and informing the first user when a second user belonged to the group registers the digital cellular phone system and keeps contact with the base station,

, wherein when the first user is informed that the second user registers the base station, the second user is informed switching to a wireless system and is kept contact thereby,

wherein the first user has a cellular phone for registering the cellular phone system and keeping contact with the base station and the cellular phone has an identification function of the base station serving for making sure an identity when the second user registers the wireless system

wherein the identification function comprises inputting a password by the second user , wherein the identification function comprises identifying a subscriber identity module of the second user,

wherein the identification function comprises inputting a password by the second user and/or wherein the identification function comprises identifying a subscriber identity module of the second user (reads on storage circuit for storing

user information) (col. 5, lines 52-65 and col. 6, lines 53-65 and col. 7, lines 7-36 and col. 8, lines 18-35 and see Fig. 2).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
